

## LEGAL HEALTH CHECK

Most people would have a check-up with their doctor at least once a year! But when was the last time your business had a check-up? It is important to regularly check the pulse of your business and monitor its legal health. Much like your own personal health, prevention or early intervention will always lead to the best results.

To help ensure that our clients and contacts are *legally healthy* for the new financial year, we are offering a complimentary 1 hour “Legal Health Check” meeting, during the month of July 2018, with one of our directors to the first 20 people to contact us. The Legal Health Check provides invaluable feedback on the health of your business and considers topics such as:

- trading structure;
- asset ownership structures;
- terms and conditions;
- succession planning;
- debt collection;
- cash flow and insolvency risks;
- asset protection;
- debt structuring;
- contracts;
- leases and property;
- employment law;
- ATO debts;
- and much more.

Should you wish to take advantage of this offer and book a meeting, please contact our reception on 08 9388 3100 or email [reception@murfett.com.au](mailto:reception@murfett.com.au).
